Memo 2019/0625

25th June 2019

To all States Secretaries, Clubs and Formula Future Members

Please ensure this is forwarded onto all clubs and members.

Please ensure all scrutineers are aware of this directive.

Further to the Directive that was issued in February 2019 in relation to Formula Future Brackets. This was discussed again at the National meeting on Saturday 11th May, in relation to the original Directive that was put on hold – the following decision has been made and is effective immediately.

A Grandfather Clause has been implemented. A list of all boats that are currently running a Modified Motor Bracket is to be submitted to the National Secretary from State Councils by the start of the 2019 / 2020 Season (1st September 2019). The owners of the Modified Motor Brackets need to provide - the Serial Number and the Registration Number for those particular motors and boats. They can continue to be used for the life of the motor **ONLY**. This Grandfather Clause **MUST** be recorded in their Log Books. If the motors are removed from these boats - they cannot be used on another Hull.

Another Reminder to **Rule # 1606.01 - ALL Formula Future racing** is to be conducted under a **handicap** format.

Yours Faithfully

Robyn Bull
National Secretary
